It has been pointed out to me that my earlier letter didn't specifically mention renters. Anyone who is renting their cottage should keep their renters fully aware of our position regarding virus precautions, which will doubtless evolve if and when the "peak" passes. Renters aren't always as aware of island practices as owners, and first-timers definitely won't have been in the email blast. Isolation during vacation will no doubt be an issue for people who can only rent for a week or two. Please soften the blow by reminding them there is lots of open space on MacMahan. They can easily keep their distance from others and avoid any chance of contaminating common surfaces if they are mindful. Again, the real risk is that there are not adequate health care facilities nearby to handle anyone who gets seriously sick.

Because bathrooms are a very dangerous place for spreading the virus, until further notice the bathrooms in the Yacht Club and Playhouse are reserved for exclusive use by SICO staff. Please advise all members of your family, your guests, and your renters about this restriction and please take it seriously!

Governor Mills has proclaimed an order:

“To slow the spread of this deadly virus and prevent our health care system from being overwhelmed, we must all do our part,” Mills said in the release. “I am mandating that anyone entering Maine self-quarantine for 14 days and abide by Maine’s Stay Healthy at Home Order. These actions will protect the health and safety of everyone.”

Steve Baumgartner
President, SICO

Governor orders travelers to self-quarantine,
suspends all lodging businesses
